TOPICAL REVIEW

Imaging cognitive modulation of pain processing
P. Petrovic, M. Ingvar (Sweden) 1

RESEARCH PAPERS

Serotonin alters multi-segmental convergence patterns in spinal cord deep dorsal horn and intermediate laminae neurons in an in vitro young rat preparation
B.L. Shay, S. Hochman (Canada, USA) 7
Selective antihyperalgesic effect of [Ser^1] histogranin on complete Freund's adjuvant-induced hyperalgesia in rats
A. Hama, J. Sagen (USA) 15
Real-time assessment of pain behavior during clinical assessment of low back pain patients
K.M. Prkachin, E. Hughes, I. Schultz, P. Joy, D. Hunt (Canada) 23
Long-term changes in behavior and regional cerebral blood flow associated with painful peripheral mononeuropathy in the rat
P.E. Paulson, K.L. Casey, T.J. Morrow (USA) 31
Cell damage excites nociceptors through release of cytosolic ATP
S.P. Cook, E.W. McCleskey (USA) 41
Is there a right treatment for a particular patient group? Comparison of ordinary treatment, light multidisciplinary treatment, and extensive multidisciplinary treatment for long-term sick-listed employees with musculoskeletal pain
E.M.H. Haldorsen, A.L. Grasdal, J.S. Skouen, A.E. Risa, K. Kronholm, H. Ursin (Norway) 49
Sex-specific differences in levels of morphine, morphine-3-glucuronide, and morphine antinociception in rats
L. Baker, A. Ratka (USA) 65
Impact of pain on self-rated health in the community-dwelling older adults
C.C. Reyes-Gibby, L. Aday, C. Cleeland (USA) 75
One-year trend in pain and disability relief recall in acute and chronic ambulatory low back pain patients
M. Haas, J. Nyiendo, M. Aickin (USA) 83
Colonic inflammation induces fos expression in the thoracolumbar spinal cord increasing activity in the spinoparabrachial pathway
R.J. Traub, A. Murphy (USA) 93
Reduced tolerance to the anti-hyperalgesic effect of methadone in comparison to morphine in a rat model of mononeuropathy
A. Bulka, A. Plesan, X.-J. Xu, Z. Wiesenfeld-Hallin (Sweden) 103
The role of operant conditioning in chronic pain: an experimental investigation
H. Flor, B. Knost, N. Birbaumer (Germany, Italy) 111
Complex regional pain syndrome: are there distinct subtypes and sequential stages of the syndrome?
S. Bruehl, R.N. Harden, B.S. Galer, S. Saltz, M. Backonja, M. Stanton-Hicks (USA) 119
Conduction velocity of the spinothalamic tract following CO_2 laser stimulation of C-fibers in humans
T.D. Tran, K. Inui, M. Hoshiyama, K. Lam, R. Kakigi (Japan) 125
Cognitions, coping and social environment predict adjustment to phantom limb pain
M.P. Jensen, D.M. Ehde, A.J. Hoffman, D.R. Patterson, J.M. Czerniecki, L.R. Robinson (USA) 133
Inhibition of neuropathic pain by decreased expression of the tetrodotoxin-resistant sodium channel, NaV1.8
J. Lai, M.S. Gold, C.-S. Kim, D. Bian, M.H. Ossipov, J.C. Hunter, F. Porreca (USA) 143
Involvement of glutamate receptors on hyperexcitability of wide dynamic range neurons in the gracile nucleus of the rats with experimental mononeuropathy
E. Kondo, K. Iwata, A. Ogawa, A. Tashiro, Y. Tsuboi, T. Fukuoka, H. Yamanaka, Y. Dai, T. Morimoto, K. Noguchi (Japan) 153
Analysis of ultrasonic vocalisation does not allow chronic pain to be evaluated in rats
D. Jourdan, D. Ardid, A. Eschalier (France) 165
Tooth extraction-induced internalization of the substance P receptor in trigeminal nucleus and spinal cord neurons: imaging the neurochemistry of dental pain
M.A.C. Sabino, P. Honore, S.D. Rogers, D.B. Mach, N.M. Luger, P.W. Mantyh (USA) 175

CLINICAL NOTE

Human 'autotomy'
D. Bowsher (UK) 187

LETTERS TO THE EDITOR

Conditional analgesia from spinally transplanted adrenal chromaffin cells
D.C. Yeomans, Y. Lu, G.D. Pappas (USA) 191
Response to Letter from Yeomans, Lu and Pappas
M.O. Lindner, J.A. Saydoff (USA) 192
Controlled clinical drug trials: creating a new paradigm
P.G. Fine (USA) 194

Number 3 – February 2002

TOPICAL REVIEW

Cognitive modulation of pain: how do attention and emotion influence pain processing?
C. Villemure, M.C. Bushnell (Canada) 195

RESEARCH PAPERS

Spatial summation for pain perception: interaction of inhibitory and excitatory mechanisms
S. Marchand, P. Arsenault (Canada) 201
The effects of excessive heat on heat-activated membrane currents in cultured dorsal root ganglia neurons from neonatal rat
A. Lyfenko, V. Vlachová, L. Vyklický, I. Dittert, M. Kress, P.W. Reeh (Czech Republic, Germany) 207
Therapeutic administration of nitric oxide synthase inhibitors reverses hyperalgesia but not inflammation in a rat model of polyarthritis
L.S. Tedesco, J. Fuseler, M. Grisham, R. Wolf, S.C. Roerig (USA) 215
Induction of Fos protein-like immunoreactivity in the trigeminal spinal nucleus caudalis and upper cervical cord following noxious and non-noxious mechanical stimulation of the whisker pad of the rat with an inferior alveolar nerve transection
H. Nomura, A. Ogawa, A. Tashiro, T. Morimoto, J.W. Hu, K. Iwata (Japan, Canada) 225
A comparison of chronic pain behavior following local application of tumor necrosis factor α to the normal and mechanically compressed lumbar ganglia in the rat
Y. Homma, S.J. Brull, J.-M. Zhang (USA) 239
Influence of endometriosis on pain behaviors and muscle hyperalgesia induced by a ureteral calculosis in female rats
M.A. Giamberardino, K.J. Berkley, G. Affaitati, R. Lerza, L. Centurione, D. Lapenna, L. Vecchiet (Italy, USA) 247
Long-term cohort study comparing medical (oxcarbazepine) and surgical management of intractable trigeminal neuralgia
J.M. Zakrzewska, P.N. Patsalos (UK) 259
The impact of pain and symptoms of depression in scleroderma
L.M. Benrud-Larson, J.A. Haythornthwaite, L.J. Heinberg, C. Boling, J. Reed, B. White, F.M. Wigley (USA) 267
Attenuation of hyperalgesia in a rat model of neuropathic pain after intrathecal pre- or post-treatment with a neurokinin-1 antagonist
C.M. Cahill, T.J. Coderre (Canada) 277

LETTERS TO THE EDITOR

Mechanisms of opioid-induced pain and antinociceptive tolerance: signal transduction
F.C. Colpaert (France) 287
In response to Treatment of central post-stroke pain with oral ketamine by Pamela G. Vick and Tim J. Lamer
W.L. Webster, C.L. Edwards (USA) 288
In reply to Letter to the Editor
P. Vick (USA) 289
Central antinociceptive-analgesic effect of diclofenac
I. Jurna (Germany) 289
Reply to Dr Jurna
L.E. Mather, Y. Lin, S.R. Edwards (Australia) 290
